LAKE LYNN QUADRANGLE
WEST VIRGINIA - PENNSYLVANIA
7.5-MINUTE TOPOGRAPHIC (DEMONSTRATION)

/data-sources:
TOPOGRAPHY: Contours Derived from USGS NED 3DEM
ROADS: US Census TIGER 2009
RAILROADS: WV SAMB 2003
STRUCTURES: Point and Polygon WV SAMB 2003
HYDROGRAPHY: WV SAMB 2003
URBAN TINT: Generated From Road and Structure Data
FOREST TINT: Generated From NLCD 2001
PA Data: USGS Topographic Map (Lake Lynn)
SCALE 1: 24 000

LAKE LYNN, WV - PA
2009

Produced by the West Virginia GIS Technical Center

This map was created for demonstration of the Urban Tint and Forest Tint layers created from research performed by the West Virginia GIS Technical Center for the U.S. Geological Survey (USGS). The research was funded by the USGS to identify data and methods to produce both Urban Tint (red) and Forest Tint (green) layers for use in a digital mapping environment. This map demonstrates the resulting products in context with other data layers that may be used for digital map production. There are four map versions in this series. The only variant to each map version is the Urban Tint layer, the Forest Tint layer is the same. Version A shows Urban Tint generated from road data. Version B shows Urban Tint generated from structure data. Version C shows Urban Tint generated from both road and structure data. Version D shows urban and structure data with no Urban Tint. For additional information see the technical report.
